

I ask that you leave the Wisconsin "No Call" law intact and not be superceded by the Federal "No Call" law. Please leave the law as is and do not allow the Consumer Banking Association to pester me with calls that I don't want or need. Please let the citizens of Wisconsin manage their own phones in this regard, as clearly seen in how the Wisconsin law came into being and fully embraced by so many state residents. My junk phone calls went to almost zero, a great thing! Thank you for considering my comments.
